Region III, Materials Licensing Section
2443 Warrenville Road
Suite 210
Lisle, IL 60532-4352

Re: License No. 21-13562-01, Crittenton Hospital Medical Center.

Please add Amr Aref, M.D. Anna Norris Rabbani, MD and Paul Chuba, MD as authorized users for 35.400 and 35.600, limited to iridium-192 for use in a high dose rate remote afterloading brachytherapy unit. All physicians are listed as an AU on Broad Scope License # 21-03210-01. Documentation of their approval is enclosed for your review.

Thank you for your cooperation with this matter. If you have any questions or require additional information please contact our physicist, Michelle L. Kritzman, at (734) 662-3197.

Respectfully,

A handwritten signature in black ink, appearing to be "Roy Powell", is written over a horizontal line.

RE: Regarding Authorized User (AU) Status

Our facility – St. John Hospital and Medical Center, 22101 Moross Rd., Detroit, MI #21-03210-01 is a specific license, but we operate similar to a USNRC approved broad scope license – in that we approved our Authorized User internal to our facility. Since we keep track of all of our Authorized User internally, I am writing a letter to confirm the following individual is approved for the following authorized uses:

- Amr Aref, MD Approved for 10 CFR 35.400, 35.600 limited to iridium-192 for use in a high dose rate remote afterloading brachytherapy unit.
- Anna Norris Rabbani, MD Approved for 10 CFR 35.400, 35.600 limited to iridium-192 for uses in a high dose rate remote afterloading brachytherapy unit.
- Paul Chuba, MD Approved for 10 CFR 35.400, 35.600 limited to iridium-192 for use in a high dose rate remote afterloading brachytherapy unit.

To help expedite this process these same exact AU are also listed on our sister hospital – St. John Macomb # 21-01190-05, and I included a copy of their licensed approvals.

If you have any questions, please email me at laura.smith7@stjohn.org or lsphysics@att.net.

Sincerely,

A handwritten signature in black ink, appearing to read 'Laura T. Smith'.

Laura T. Smith, MS, DABR
Sr. Physicist/Radiation Safety Officer
